## INSTRUCTIONS

- A. A. The Letter of Substantial Compliance must be filled out completely, signed and sealed by development's Engineer of Record.
- B. A request for final inspection must accompany the letter of substantial compliance.
- C. Changes:
  - 1. If the as-built construction contains minor changes from the approved development order plans that are so inconsequential that, on the basis of accepted engineering practices, it is not significant enough to be shown on the development site plans, an application for a Minor Change (see LDC section 3-98) is not required.
  - 2. If the as-built construction contains minor changes from the approved development order plans that do not substantially effect the technical requirements of the LDC or require a review by two or less of the following review disciplines, zoning, transportation, drainage, fire, utilities and landscaping, an application for a Minor Change (see LDC section 3-98) is required.
  - 3. If the as-built construction contains changes from the approved development order plans that effect the technical requirements of the LDC or which exceed the limitations of LDC Section 3-98 for minor changes, an application for an Amendment (see LDC section 3-96) must be submitted and approved prior to submission of a letter of substantial compliance by the engineer.
- D. All stipulations which were attached to the Development Order and were required to be satisfied prior to issuance of the Certificate of Compliance must be listed and the status of the stipulation identified. If the stipulation has not been satisfied, provide documentation that the stipulation has been adequately addressed or in the alternative, that compliance with a certain stipulation(s) is not required in connection with the specific Certificate of Compliance request.
