

City of Bonita Springs Construction and Demolition Debris Material Handling Worksheet

(239) 444-6150 (239) 444-6140 (fax)

Column A: List Estimated Quantities of waste for each material type (in tons). To convert yards to tons, use the City Approved Materials Conversion Worksheet.

Columns B, C, D: List estimated quantities reused, recycled, or disposed based on Column A quantities.

Column E: State the name of all vendors or facilities used to reuse, recycle or dispose of materials listed. See examples below for cases where more than one facility was used for a particular material type.

Column Totals: Add up all material quantities for each column.

Diversion Percentage Estimate: Calculate the estimated diversion percentage and insert this on the appropriate space on the Project Certification Form. If this number is less than 50%, submit a project Exemption Form for review prior to submitting final paperwork. Exemptions are to be submitted to Code Enforcement, located at 27300 Old 41 Rd. Bonita Springs, Florida 34135 or Fax 239-947-5145.

Materials	A Total Quantity Generated	B Salvaged or Reused	C Recycled	D Disposed (Landfill)	E Proposed Destination(s)
Example: Cardboard	2 tons		1.5	0.5	Recycle – XYZ Recycling Facility Disposal – Gulf Coast Landfill
Asphalt and Concrete					
Brick/Masonry/Tile					
Building Materials					
Cardboard					
Carpet/Padding/Foam					
Ceiling Tiles					
Drywall					
Wood					
Metals					
Landscape Debris (do not include dirt)					
Dirt					
Garbage/Trash		X	X		
Appliances					
Mixed Debris*					
Other					
Column Totals	A	B	C	D	

* Mixed debris for recycling may only be included if the destination facility is a County Approved mixed debris recycling facility.

Diversion Percentage Estimate Calculation

Column Totals $\frac{B + C}{A} \times 100\% = \boxed{}\%$
