Job Address

Street: _____

City: _____ State: _____ Zip: _____

Strap Number: _____

Contractor Name: _____

Applicant Name: _____

Applicant email: _____ Phone: _____

Directions to site: _____

Reason for Vegetation Removal: _____

Please describe how many trees you propose to remove and where the trees are located.

- Fees: \$55 for the first tree and \$55 for all trees after the first.
- Job Description: _____

Development Order Number: _____

Inspections: It is understood that submission of this application grants the director or the signer, the right to conduct an on site inspection to determine that any removal, pruning or other such activities conform to the land development code. A final inspection is needed to close out the permit.

Applicant or Owner Signature Date: _____

Printed Name of Applicant or Owner

Please note: The city protects its native & code required trees until there is a valid reason to remove them. Valid reasons to remove trees:

- Trees are too close to utility lines and are damaging lines
- Trees are lifting up asphalt or concrete too severe to be repaired

After this permit is applied for, an Environmental Specialist will come to the site and evaluate the damage and make a determination based on our criteria if the tree can be removed. If the tree is a required landscape tree, then a ten (10) foot replacement tree of the same species is required to be planted in a similar (but not the same) location to keep the continuity of the neighborhood.
